FLUID PAINTING

GET MESSY AND MAKE A MASTERPIECE!

Fluid painting classes are great for groups who want to take time for a creative activity, but would rather play with colors than learn more advanced techniques. This activity, while messy is surprisingly relaxing. It's also the perfect exposure therapy for perfectionists. This class also allows for you to customize the colors in each supply kit, so that each participant gets to make a masterpiece in colors they will love.

PAINT WITH PAPER!

Paper quilling is a traditional craft that is making a comeback! This craft reminds me of a mix of knitting and painting with paper. It's a great activity for groups who like methodical repetitive processes, akin to knitting away while watching TV. This one is my class best suited for casual conversation during class.

What past classes have to say!

"We have hosted Rebel Unicorn Crafts on multiple occasions for our team events and have not been disappointed! From the start, everything was super easy to set up and organize. Everyone received their class kits with ample time before the event (they even had super cute branded paints!). The sessions were extremely fun and the instructor was very interactive with all the participants. After the event, we had many people say the event was one of their favorites and even some of our first time artists, who were a bit skeptical, really enjoyed the session."

- Heather Wright, Program Manager at Google

"My team was thrilled to have Lacey lead a watercolor workshop for us back in August. It was my first fun team event to plan on my current team so there were considerable nerves and anxiety involved on my end.

Luckily, Lacey being a top of the line professional, assisted me in all the logistics involved in ensuring the event was a success. Moreover, Lacey customized the theme of the workshop to match the branding of my team's Cloud business (we painted the most adorable clouds) which made the event extra meaningful. Lacey's upbeat, positive energy and well-structured workshop resulted in a very engaging event for my team of executives. Thank you, Lacey, for giving us an absolute blast!"

What to Expect

WHAT HAPPENS AT EACH STAGE

The Nitty Gritty – Booking Process

— — —

Step 1: Get your class on the schedule (at least 2-4 weeks in advance).

1. Contact me (Lacey) and, together, we can decide on a time that works for everyone. (Classes can be scheduled between 9am and 8pm MT.)
2. Have your group's organizer invite me to your virtual event so that I have the correct time, date and link to join.
3. Confirm your class topic and headcount.
4. Rebel Unicorn Crafts provides a Square invoice for payment.
5. **Depending on class size, 2-4 weeks' notice is required for supply kits** so we have enough time to create the components, assemble the kits, pack them up and get them delivered:
 - 1-14 participants = two (2) weeks' notice
 - 15-49 participants = three (3) weeks' notice
 - 50+ participants = at least four (4) weeks' notice

The Nitty Gritty – Domestic Shipping

Step 2: Get your supply kits.

Once your class has a spot on the schedule, I will send you a Google Form for your group to provide their email and shipping info. (This contact info is used for shipping purposes only.)

Domestic shipping (U.S.) - Shipping addresses are required ten (10) days prior to your class to ensure on-time delivery.

The shipping typically takes about 5-7 days to arrive at participants addresses. For this reason, we must have participant addresses ten (10) days prior to your class.

- ! If we don't receive your addresses ten (10) days or more prior to your class, your supply kits may not arrive in time.
- ✓ If you'd like your supply kits sooner or need expedited delivery, you have the option to upgrade the shipping for additional costs. Contact me directly for details.

Need international shipping? Check out the next page. >>>

The Nitty Gritty – International Shipping

— — —

International shipping (outside U.S.) - Shipping addresses are required 12 days prior to your class to ensure on-time delivery.

International shipping is quoted on a per class basis and is based on supply kit box size & weight and participant's address.

Shipping cost quoted only covers the actual shipment. Participants are responsible for additional international shipping costs, including international duties, customs tax and value-added tax (VAT).

- ! If we don't receive your addresses twelve (12) days or more prior to your class, your supply kits may not arrive in time.
- ✓ If you'd like your supply kits sooner or need expedited delivery, you have the option to upgrade the shipping for additional costs. Contact me directly for details.
- ✓ If international shipping will be cost-prohibitive, I can provide a supply list for participants to gather themselves as well as offer a reduced virtual class cost.

The Nitty Gritty – Class Time!

Step 3: Enjoy the class!

Each class lasts around 1.5 hours, and I typically join the virtual event about 5-10 minutes early to make sure my technical equipment is all set up.

There is no need for the organizer to join early, but they are welcome to do so if they have additional questions before the class.

If your team is planning on syncing before the call and you want me to wait and not join right away, that's fine too, just let me know!

FAQs

What happens to my group's contact information?

Rebel Unicorn does not store any contact information (including addresses and emails) for your group other than for the limited-time purpose of shipping the supply kit boxes. This contact information is temporarily stored in my Google Drive and deleted after the class unless there is an issue to resolve (e.g. the shipment was lost and I need to replace it). However, we do use third-party services Stamps.com and Pirate Ship (pirateship.com) for international and domestic shipping respectively. Please check their privacy policies on their websites to learn more about how they process your data.

Is there any risk to using the supplies in the supply kit?

There are always risks when using tools and supplies that are new to you. While the class instructor will provide safety gear and best practices, each participant assumes the risk of using anything provided in the supply kits. **For any classes that use metals, a separate waiver is required.**

FAQs

What happens if there's a problem with my supply kit?

- **Is something missing from your box?** Let me know and I will send a replacement pronto.
- **Is something damaged?** My main priority is that you have everything you need to have an awesome class, so I will replace whatever arrived damaged. To get the process started, send me photos of the outside and inside of the box so I can determine if it was a packing issue (me) or a shipping issue (USPS).
- **Did your supply kit not arrive?** Once a supply kit has been shipped, it's impossible to know what happened during transit and after delivery. Each situation is unique, so if your supply kit goes missing during the shipping process, let's talk 1:1.
